

# WORLD-CLASS LAB SERVICES

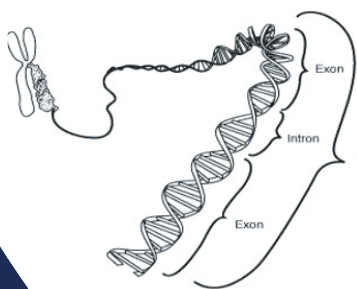

## Quality Results When You Need Them

- Quick turnaround times
- Cost effective results
- In-depth analysis

## SERVICES OFFERED

### DNA Extraction From Plant Tissues

- Raw DNA extraction from any plant tissue
- DNA purification based on fragment size selection
- DNA quantification including fragment size analysis by TapeStation

### DNA Sequencing

- DNA sequencing based on nanopore technology
- Polishing of DNA sequence data
- Comprehensive reports on sequence data

### Tissue Culture

- Explant propagation and maintenance for fruit tree species
- Plant regeneration from various type of explants
